

New and Improved Post Tension Solution.

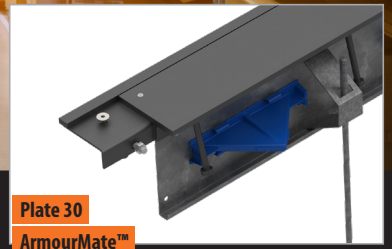

Plate 60 ArmourMate™ is designed to be installed at the construction joints in Post Tension slab applications or where large shrinkage joints are expected to occur.

The system is also available in a Plate 30 configuration, allowing seamless compatibility with 10mm Diamond™ Dowels for enhanced joint performance (Maximum joint opening to 30mm).

**Complies with the requirements
of TR34 (4th Edition).**

**Designed for a range
of industrial flooring
designs including:**

**Warehouses
& Cold Storage**

Distribution Centres

**External Slabs
(Parking & Delivery Areas)**
